LETTER OF REFERENCE / Amazon Luton

SINTEC UK LIMITED has successfully completed electrical installation of DEMATIC's automated material handling and storage systems at **AMAZON** site in Luton, in the second half of 2016.

Despite numerous challenges imposed by changes in the programme, SINTEC managed to keep steady workflow by closely liaising with our site team, to keep the electrical installation on track.

DEMATIC is satisfied with quality workmanship and coordination by SINTEC, and is looking forward to strengthening cooperation with SINTEC.

Andrew Woollam
Head of Project Installation
