

**PR Automation Ltd**

**SINTEC UK LIMITED**

Dimitri Romaniuk

9 April 2015,

SINTEC UK have successfully **completed** several projects for PR Automation, at JLR sites at Solihull and Castle Bromwich.

We first used Sintec in 2013 on a small glazing cell project at JLR Castle Bromwich. Following the successful completion of this project, we approached Sintec again to quote for the electrical installation of 7 VCATs systems for JLR, at their new facility at Solihull.

After accepting the comparative quote from Sintec, work commenced in April 2014

Despite many issues outside of the control of Sintec and PRA creating delays and changes to the project PR1472, Sintec worked well with PRA to overcome these challenges, and built on our working relationship in completing a high standard installation.

The standard and quality of work from Sintec has been excellent.

P R, Automation would recommend Sintec to other companies and look forward to working with Sintec on future projects

Yours Sincerely

Phill Pearce
