

Letter of Reference

Herewith we, SSI Schaefer, confirm that **Sintec UK Limited**, Unit 23 Metro Centre, Britannia Way, London NW10 7PA, UK, is a reliable long term partner in the installation of automated warehouse distribution systems.

In the realization of a sophisticated fully automated logistics system for our customer

BOL.com in Waalwijk, Netherlands

between February 2020 and December 2020 Sintec supported us with a considerable number of fully qualified, highly motivated mechanics and electricians.

The mechanics did a large proportion of the installation and alignment of all mechanical components while the electricians did power supply as well as the cabling of the 24 V control components to our complete satisfaction.

With their professional support it was possible to install our conveying-, commissioning- and storage-systems according to our high quality standards.

In addition we want to state that Sintec is and has always been a very reliable partner who tries to meet our requirements perfectly, so we definitely plan to cooperate closely in various projects in the future.

Graz, 15.12.2020

Florian Gross, Dipl.-Ing.(FH)
Head of Installation Global
